

Original Power Transmission Supplies

---

Company Profile 2023

# About Us

Original Power Transmission Supplies is a major distributor of Industrial, Oil & Gas, automotive, and agricultural spare parts in Iraq. Working directly with world-famous brands. The company is the authorized distributor of SKF, Hi-force, Gates, Loctite, Brugarolas, HFB, MLT, and numerous other brands in Iraq.

OPTS carries a large stock of power transmission parts in its warehouse in Erbil and Basra to service all the major plants and companies. With its teams of constantly traveling engineers, OPTS is always here to offer direct support to clients all over Iraq. In its warehouse, OPTS carries all types of bearings, chains, belts, sprockets, hydraulic tools, bolting equipment, condition monitoring, maintenance tools, lubricants, adhesives, hoses, fittings, and all other types of mechanical parts needed by its diverse clientele.

OPTS's mission is to meet the expectations of its customers in terms of providing them with trusted original quality products and giving them the related technical support needed. For that, OPTS not only sells the products, but also offers related training, presentations, webinars, and technical support to any client when they need it.

## Our Brands

The world-renowned bearing manufacturer. The company also produces seals, grease, chains, belts, and other PT products. In addition, SKF has advanced PT machinery and tools available for sale.

## Bearings

SKF manufactures virtually every type of ball and roller bearing. They are available in various cross-sections and satisfy a huge variety of operating conditions and application performance requirements.

## Belts & Chains

SKF Power Transmission is a product line that provides a complete range of components including high-quality belts, chains, couplings, pulleys, sprockets, bushings, and hubs.

## Lubrication

Integrated SKF lubrication solutions combine our expertise in bearings, seals, and condition monitoring with our tribology knowledge the study of friction, wear, and lubrication.

## Maintenance Products

Every bearing has a specific service life potential. Research has shown that for various reasons, not every bearing achieves it. Important stages which have a major impact on a bearing service life can be recognized during the bearing's lifecycle. These stages are mounting, lubrication, alignment, basic condition monitoring, and dismantling. The stages in a bearing life cycle are extremely important for achieving the maximum service life of the bearing. By applying the right maintenance practices and using the correct tools, you can considerably extend your bearing's service life and increase plant productivity and efficiency.

# Hi-Force<sup>®</sup>

HYDRAULIC TOOLS

Hi-Force is the UK's leading designer, manufacturer and supplier of hydraulic tools. Catering to a wide variety of industries, the product range comprises of over 2,000 products including hydraulic cylinders, pumps, jacks, torque tools, bolt tensioners, hydrotest pumps, puller kits, crimpers and cutters, nut splitters, flange spreaders, toughlift jacking systems, pipeline and other industry related hydraulic tools.

Hydraulic Torque Wrench

Hydraulic Cylinders

Bolt Tensioners

Puller Kits

Cutter and Crimper

Nut Splitters

Flange Spreader

Hydrotest Pumps

The world's most trusted source for belts and hoses. Gates also has a special division for oil machinery design and hose maintenance.

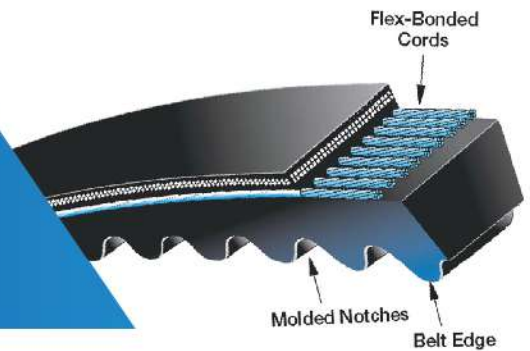

## Hoses - High Pressure

Gates hose and hydraulic systems, equipment, and accessories to power their most demanding fluid power applications. With patented technologies designed to perform in extreme conditions

## Belts

Trust the leaders in research, design, material science, and the manufacturing of the best power transmission solutions in the world - only with Gates.

## Timing Belts

## Automotive Belts

# LOCTITE

Loctite is an American brand of adhesives, sealants, surface treatments, and other industrial chemicals.

Lubricants

Anti Seize

Thread Locker

Thread Sealing

Gasket Maker

# Brugarolas

Brugarolas is a Spanish chemical company with a long history. Since 1885, Brugarolas is dedicated to the production of all kinds of greases and lubricants, fluids for metallurgy, fluids for metal deformation and, in general, chemicals with countless industrial applications.

Automotive oils

Industrial oils

Grease

## Super-Screw

Super-Screw® is an innovative and fast solution for splicing conveyor belts. This patented mechanical splice provides a solution to all your installation problems.

**MLT**  
Minet Lacing Technology

MLT has more than 70 years of experience in the manufacture of conveyor belt splicing solutions and the design of technical belts.

CLIMAX is the global leader for mission-critical projects, offering precision tools that minimize downtime and boost productivity. Trusted worldwide, CLIMAX excels in portable machining, welding, and valve testing, providing essential solutions for industries requiring reliability and efficiency.

## PRODUCTS AND SERVICES

Line Boring Machines

Bore Auto Welding Machines

Flange Facers

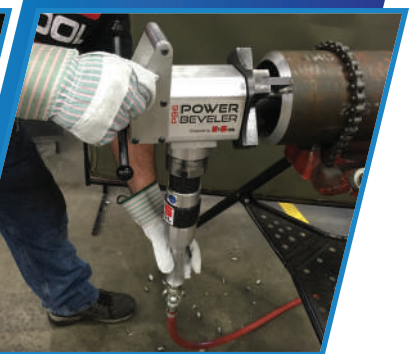

Lathes / Drills

Milling Machines

Tube Bevelers

Power Pipe Bevelers

Tube Rolling

Expanding Equipment

Clamshell - Pipe Cold Cutter

Valve Repair Machines

Valve Testing Machines

## In-time product delivery

Our logistic manager together with our sales team is always working relentlessly to make sure that our customers' needs are met. High-in-demand products are always kept in stock, while rapid delivery solutions are always found for any urgently needed items in emergency cases.

## Consulting

Our team of trained engineers with long experience in the field can offer our customers any technical assistance to help them identify their required parts, or aid them in finding solutions to any mechanical, hydraulic, or lubricating issues that they have.

## Training

We offer training and presentations in our modern training center based in Erbil. We also offer site-specific training to our customers on many diversified and/or specialized power transmission subjects.

## Deep connection with our customers

Our team of engineers routinely visits all our customers no matter where they are and continuously discusses ways we can improve cooperation. OPTS is an authorized vendor to the biggest industrial and Oil & Gas companies with exclusive frame agreements signed with many top players.

## After-Sales Support

To achieve higher customer satisfaction. We provide our clients with all the support they need after selling a product or a service. Including warranty service, training, or repair for a product.
